EVERYTHING ELSE IS EVERYDAY LIFE.

**ESCAPE
FROM THE GREY
EVERYDAY LIFE...**

...AND GET UP INTO THE SUN!

The cableway will take you to another world in only 8 minutes!

The nature reserve of the Rax offers you an incomparable mountain experience – not only in summer but also in winter more and more guests visit the high plateau.

You will find peace and relaxation, we offer for snowshoe and tour hiking lovers a destination easy to reach and full of incredible qualities. Neither the lifts nor the noise dominate the mountain, no – the sound of the crunching snow under the poles and snowshoes free you completely from the stress of everyday life. Especially when you only have a few hours, the Rax offers itself in an ideal way. Finally nature!

SIMPLY WONDERFUL – WONDERFULLY SIMPLE: SNOWSHOE HIKING ON THE RAX!

Everything you need are winter-suitable, high hiking boots and weather-resistant clothing. Snowshoes and sticks but also a thermos flask of tea can be rented at the Bergstation (top station) of the Rax-Seilbahn (Rax-cableway) and off you go! Three marked routes start at

the Berggasthof of the Rax-Seilbahn, where information materials are available – directly at the top station. Along the marked route you can hike to the Schutzhaus Ottohaus (shelter Ottohaus) and treat yourself with a well-deserved refreshment (in winter only open in fine weather).
